

Health Insurance Benefits for

BREASTFEEDING SUPPORT, SUPPLIES AND COUNSELING

Blue Cross and Blue Shield of Nebraska (BCBSNE) covers several women's preventive services at 100% when you use an in-network provider. Those services include breastfeeding support, supplies and counseling.

To confirm if this benefit is available on your plan, please call the Member Services number on the back of your member ID card.

What is covered at 100%?

Not all breastfeeding support, supplies and counseling services are covered under your plan. Certain criteria must be met for services to be covered at no cost to you.

For breast pump kits to be covered at no cost to you, the breast pump kits must be obtained from an in-network provider. If you receive a pump kit from an out-of-network provider, you may be responsible for a large portion of the purchase. To determine your cost, call Member Services at the number shown on the back of your member ID card.

This provision covers either one manual or electric grade breast pump kit per pregnancy. The starter kit will include the necessary pump and supplies including the valves, membranes, pump tubing and breast shields to operate properly. The type of supplies included may vary dependent on brand, type or the manufacturer of the breast pump kit. Replacement and additional breastfeeding supplies such as maternity bras, nursing pads, additional bottles and other items are not covered. Most breast pump kits are typically warranted through the manufacturer. If you are experiencing any problems with your breast pump, please contact your provider to assist with troubleshooting the issues or manufacturer to inquire about warranty coverage.

Lactation support and counseling is covered when offered by a trained, in-network provider with the designation of International Board Certified Lactation Consultant (IBCLC). Covered lactation services include counseling and lactation classes taught by an IBCLC.

How to receive a breast pump kit at no cost to you:

- Obtain the breast pump kit from an in-network provider from the list on the next page (the breast pump provider must also be in-network for your health plan). To find an in-network provider, visit NebraskBlue.com/DoctorFinder.
- Contact the provider to ensure they sell breast pumps kits. Not all durable medical equipment suppliers have them.
- Purchase the breastfeeding equipment at the pharmacy instead of the upfront cashier if the in-network supplier is a retail store. Only the pharmacy of an in-network retail store is considered an in-network durable medical equipment supplier.
- For phone and online orders, breast pump kits must be delivered to the state in which the member resides. If you have any other questions, call the Member Services number on the back of your member ID card to determine if you qualify for this benefit to be covered at no cost.

If you purchase a breastfeeding pump kit from an out-of-network provider:

- Complete a claim form, attach the original receipt that shows a breast pump was purchased and submit the claim to BCBSNE. Include the type of pump, i.e. manual or electric, and the model number.
- Out-of-network providers will only be reimbursed up to the maximum allowable amount. You will not be reimbursed for any amount over the maximum allowable amount.

The person receiving benefits must be a covered person under the health plan. These services will be covered under your plan's preventive benefits, even if the plan does not cover maternity for the employee, spouse and/or dependents.

Frequently Asked Questions

Q: If I purchase a breast pump kit at an in-network retail store, is there a difference in reimbursement if I pay for it at the cashiers at the front of the store versus the in-store pharmacy?

A: Yes. To get the breast pump kit at no charge, you **MUST** go through the retail store's pharmacy. The pharmacy is in-network for durable medical equipment, but not the retail store. If you purchase the breast pump through the cashiers at the front of the store, it will be considered out of network, and you will need to pay the full price of the breast pump kit and submit a claim to be reimbursed. You will be only reimbursed for a portion of the cost. Going through the pharmacy, you will receive a breast pump kit at no cost so there is no need to submit a claim.

Q: If I go to an in-network durable medical equipment retail store pharmacy and make the purchase at the pharmacy, do I need to pay anything up front?

A: No, you do not need to pay up front if you purchase the equipment at the pharmacy. The pharmacy will submit the claim directly to BCBSNE. There will be no charge to the member for this purchase at the time of sale. There will also be no need to submit a claim for reimbursement.

Q: Can I get reimbursed for a breast pump kit given to me as a gift?

A: No.

Q: Do I need a prescription for a breast pump kit?

A: While not always necessary, some durable medical equipment providers may require a prescription.

In-network Breast Pump Kit Providers

We recommend calling the provider from list below to see if they have the breast pump kit in stock. You may ask the provider to order the breast pump kit for you as some do not keep inventory or only carry a limited supply. **For phone and online orders, breast pump kits must be delivered to the state in which the member resides. If you have any other questions, call the Member Services number on the back of your member ID card to determine if you qualify for this benefit to be covered at no cost.**
